

Category tree: <https://www.isoldwhat.com/getcats/full-category-tree>

Category has smaller categories:

Ex. Antiques #20081 -> Architectural and Garden #4707 -> Beams #162927

Examples: <https://pajaydev.github.io/ebay-node-api/#/?id=searchitemsbykeyword>

Get category: <https://developer.ebay.com/devzone/xml/docs/reference/ebay/GetCategories.html>

findItemsByCategory:

<https://developer.ebay.com/DevZone/finding/CallRef/findItemsByCategory.html#sampleaspectHistory>

Use multiple category IDs: <https://developer.ebay.com/support/kb-article?KBid=2100>

findItemsAdvanced:

<https://developer.ebay.com/DevZone/finding/CallRef/findItemsAdvanced.html#Request.itemFilter>

Search by keywords example: `ebay.getAccessToken()`

```
.then((data) => {
  ebay.searchItems({
    keyword: 'iphone',
    limit: 3,
    filter: { price: '[300..800]', priceCurrency: 'USD' }
  }).then((data) => {
    console.log(data);
  })
});
```

Category filter example: `ebay.findItemsByCategory(170999).then((data) => {`

```
  console.log(data);
}, (error) => {
  console.log(error);
});
```
